

# THE FIRST FLIGHT

Papi - July 12, 2010

*Test your wings - go ahead fly  
Past your minds sight to soar on high  
Grapple and claw causes while loosing the tree  
Set stronger and better the desire in determination to flee  
Beyond the great barriers higher than the climb of mortalities view  
Let wings of glory focused and sure . . .  
delight the victory known only to few*

*That you've seen and course you've gone is none but the All universe  
Unfolded splendors - correlating factors – shown in true reverse  
Of balanced patterns, glorious adorns, assignments to reflect  
The hidden path of wisdom's cause to set the true effect  
Rule claims the charm of all and sets to each its own  
Go ahead test your wings you'll find you're not alone  
Test your wings - go ahead fly*
